**Features**

- 2-in-1 tube: regular T8 tube with backup battery
- Built-in lithium batteries
- Easy battery shutoff switch for a long stocking time
- Anti-electric shock safety switches - patented
- Easy to install and cost-effective
- 5-year warranty

**Product Compliance & Certifications:**

- ETL
- DLC
- 90 minutes battery time per industry standard

**Description**

Aleddra’s G3 Emergency LED T8 Tube is a 2-in-1 tube that can be used as a regular T8 lamp and automatically draws power from its built-in battery and lasts more than 90 minutes on battery at 420 lm. It is double-end wired on line voltage (ballast bypass). It comes with dual safety switches on both end caps, which had been documented by a federal agency to be the most effective means of electric shock protection for an LED T8 tube. It is a cost-effective option for many facilities such as office buildings, schools, hotels, multifamily apartments, hallways, corridors, and stairs. It required to operate on an always-on circuit in order to keep the battery charged at all time.

**Specifications**

- **Color:** 4000K, 5000K
- **Wattage:** 15W
- **Length:** 4ft
- **CRI:** >80
- **Input Voltage:** AC100-277V
- **Light Output:** 1890lm
- **LED Type:** SMD2835
- **Power Factor:** >0.92
- **Luminous Efficiency:** >120lm/W
- **Battery Backup Time:** 90 minutes
- **Light Output When on Battery:** 420 lm at 3.5W
- **Warranty:** 5-year
