Description

The new HID Replacement LED Filament Lamps offer an easy and short payback solution to replace High Intensity Discharge (HID) lamps. They bring all the energy efficiency and long-life benefits of LED to HID replacement, while providing instant savings from a low initial investment. These lamps are designed with an optimal lamp size as well as light distribution with a familiar look and feel as conventional HID lamps. What sets them apart is the innovative High-Power LED filament technology enclosed in a glass bulb, ensuring a distinctive lighting experience. They are easily retrofit for outdoor and indoor applications.
