Integrated T8 Battery Backup

Features

- Integrated T8 fixture with backup battery
- Built-in lithium batteries
- Test button and battery charging status indicator
- Easy to install and cost-effective
- 5-year warranty

Product Compliance & Certifications:
- ETL

Description

The Integrated T8 Battery Backup fixture (BB T8N) comes with an integrated battery. It can be used as a regular T8 fixture. During power outage, the battery will provide backup power for the fixture for more than 90 minutes. It has a test button for checking the light output on battery, as well as another indicator showing the battery charging status. It has over-charging and over-discharging protection for ensuring 800 battery recharging cycles. This integrated T8 battery backup fixture is a cost-effective option for providing battery powered lighting during a power outage. It is suitable for many facilities such as office buildings, schools, hotels, multifamily apartments, hallways, corridors, and stairs. It required to operate on an always-on circuit in order to keep the battery charged at all time.

Specifications

- Integrated T8 fixture with backup battery
- Built-in lithium batteries
- Test button and battery charging status indicator
- Easy to install and cost-effective
- 5-year warranty

Color

4000K, 5000K

Wattage

9W, 18W

Length

2ft, 4ft

CRI

>80

Input Voltage

AC100-277V

Light Output

2ft: 1080lm, 4ft: 2160lm

LED Type

SMD2835

Power Factor

>0.92

Luminous Efficiency

>120lm/W

Battery Backup Time

90 minutes

Beam Angle

120°

Light Output When on Battery

3W, 427.9lm

Warranty

5-year
